

Case Example 1

The subject of this case example is a small electrical contractor with 35 employees, 12 families and 23 individuals. In order to compete for quality workers, the employer feels it is important to offer benefits. However, as a small-business owner, the employer is concerned about costs. The employer has been offering a plan to its employees, for which, it pays half of the premium for single coverage. The plan is compatible with health savings accounts (HSAs), and the employer also contributes \$75/month to each employee's HSA. After an increase at renewal of 15%, the employer decides to investigate other options.

EMPLOYER

	Before National General Benefits Solutions	After National General Benefits Solutions
Summary	<p>Employer only offers a health plan with no ancillary coverages.</p> <p>Enrollment was done via census.</p> <p>The employer distributes the plan summary and attempts to answer questions from employees based on his own knowledge and experience.</p>	<p>Employees and employer are both saving money on premium costs — almost 13% for the employer. The employees are also excited to have access to optional ancillary products through the exchange portal with no additional cost to the employer. The level-funded plan will provide additional savings if the claims are better than expected.</p>
Plans & Premiums	<p>A traditional, fully-insured, high-deductible health plan (HDHP) that is HSA compatible with deductibles set at \$2500/\$5000 means premiums are \$319 for EE only and \$820 for family coverage.</p> <p>Employer pays 50% of EE-only costs and adds \$75/month to the HSAs.</p> <p>Total cost = \$8,207.50/month, \$98,490/year</p>	<p>HSA-qualified HDHP with \$2500/\$5000 deductible</p> <p>Premiums are \$260 for EE only and \$663 for family coverage.</p> <p>Employer pays 50% of EE-only costs and adds \$75/month to the HSAs.</p> <p>Total cost = \$7,175/month, \$86,100/year; a savings of \$1,032.50/month, \$12,390/year</p>
Communication, Enrollment & Administration	<p>Employer enrolls employees via spreadsheet and the carrier's website. Plan summary and descriptions are distributed by the employer who also answers any employee questions.</p> <p>The broker holds a group meeting once a year and is available to the employer via email and phone.</p> <p>The carrier provides support via phone and email for billing and coverage questions.</p>	<p>The OmniPoint platform simplifies the enrollment process and provides additional information on the plans 24/7 for all employees.</p>
